A. Colour Palette

One of the key elements of your branding.

Color palette showing three circles: green (#1991EB), blue (#09C199), and purple gradient (#3023AE / #C86DD7) with their respective RGB values.

B. Typography

Typo is big part of your designs. And here we are again, prepared for every situation. One hint for you at the end: Always care about readability and use line-height more than 140%.

Typographic examples for H1, H2, H3, and BODY sizes, showing the text 'Far far away, behind the word mountains, far from the countries Vokalia and Consonantia...' in various weights and sizes.

C. Paragraphs

Pairing examples of typefaces. Hint: Always aim for nice whitespace

Paragraph examples for H1, H2, and H3 sizes, including a 24PX example about 'Mankind was born on Earth' and a 20PX example about 'This world's a treasure, Don; but it's been telling us to leave for a while now.'

D. Inputs

Various inputs are available for you in the Symbols menu. Drag anything from Inputs, Textareas with various icons, resizers or cursors. If you don't fancy the "extra elements" feel free to just delete them from symbol setups! :)

Grid of input field examples including text inputs, inputs with icons, inputs with search icons, inputs with labels, textareas, and textareas with icons.

E. Buttons

Buttons with ready to use Normal, Hover, Clicked, Loading and Disabled states. All for you to easily understand the magic of "States" layers within the symbols.

Grid of button examples showing various states (Normal, Hover, Clicked, Loading, Disabled) for different button styles and icons.

F. Selects & Dropdowns

Predefined Select buttons with various options such as icons, avatars. Again, in all possible states.

Grid of select and dropdown menu examples, including standard selects, selects with icons, and selects with avatars.

G. Dropdown Dialogs

And even dropdowns, ready for rounded corners as well. Just take the base layer from here if you want to use it!

Grid of dropdown dialog examples, including standard dropdowns, dropdowns with rounded corners, and dropdowns with avatars and lists.

H. Checkboxes / Radio / Toggles

This package comes with Checkboxes, Radio and Toggle Buttons. Easily manageable through nested symbols to give you a the flexibility.

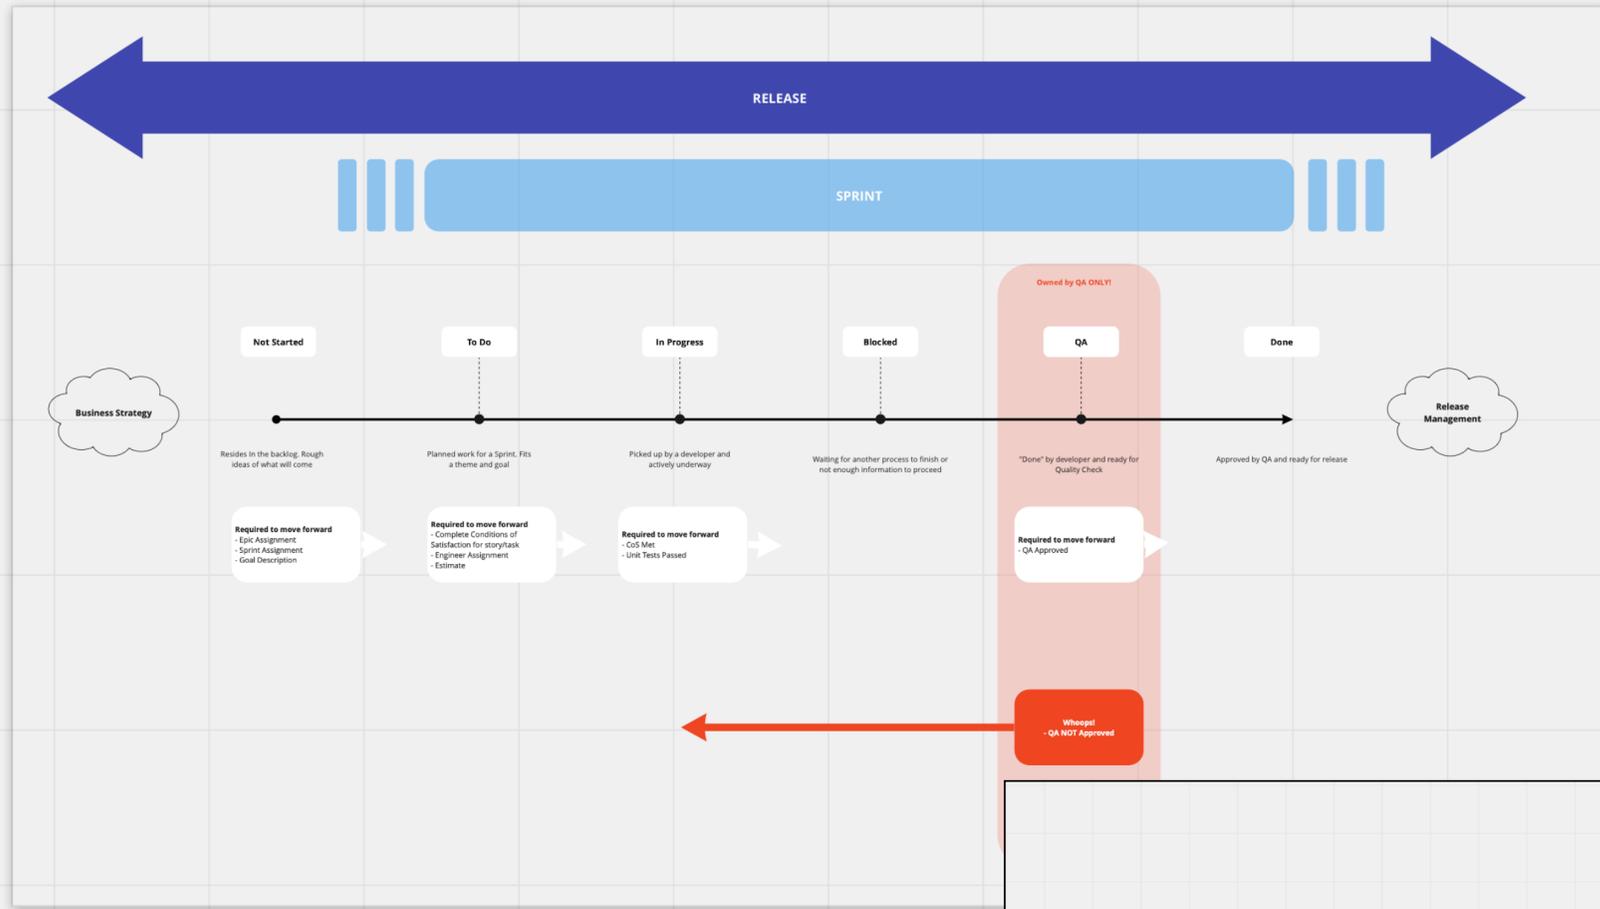

Grid of checkbox, radio button, and toggle button examples in various states (Inactive, Selected, Indeterminate, Disabled).

I. Others

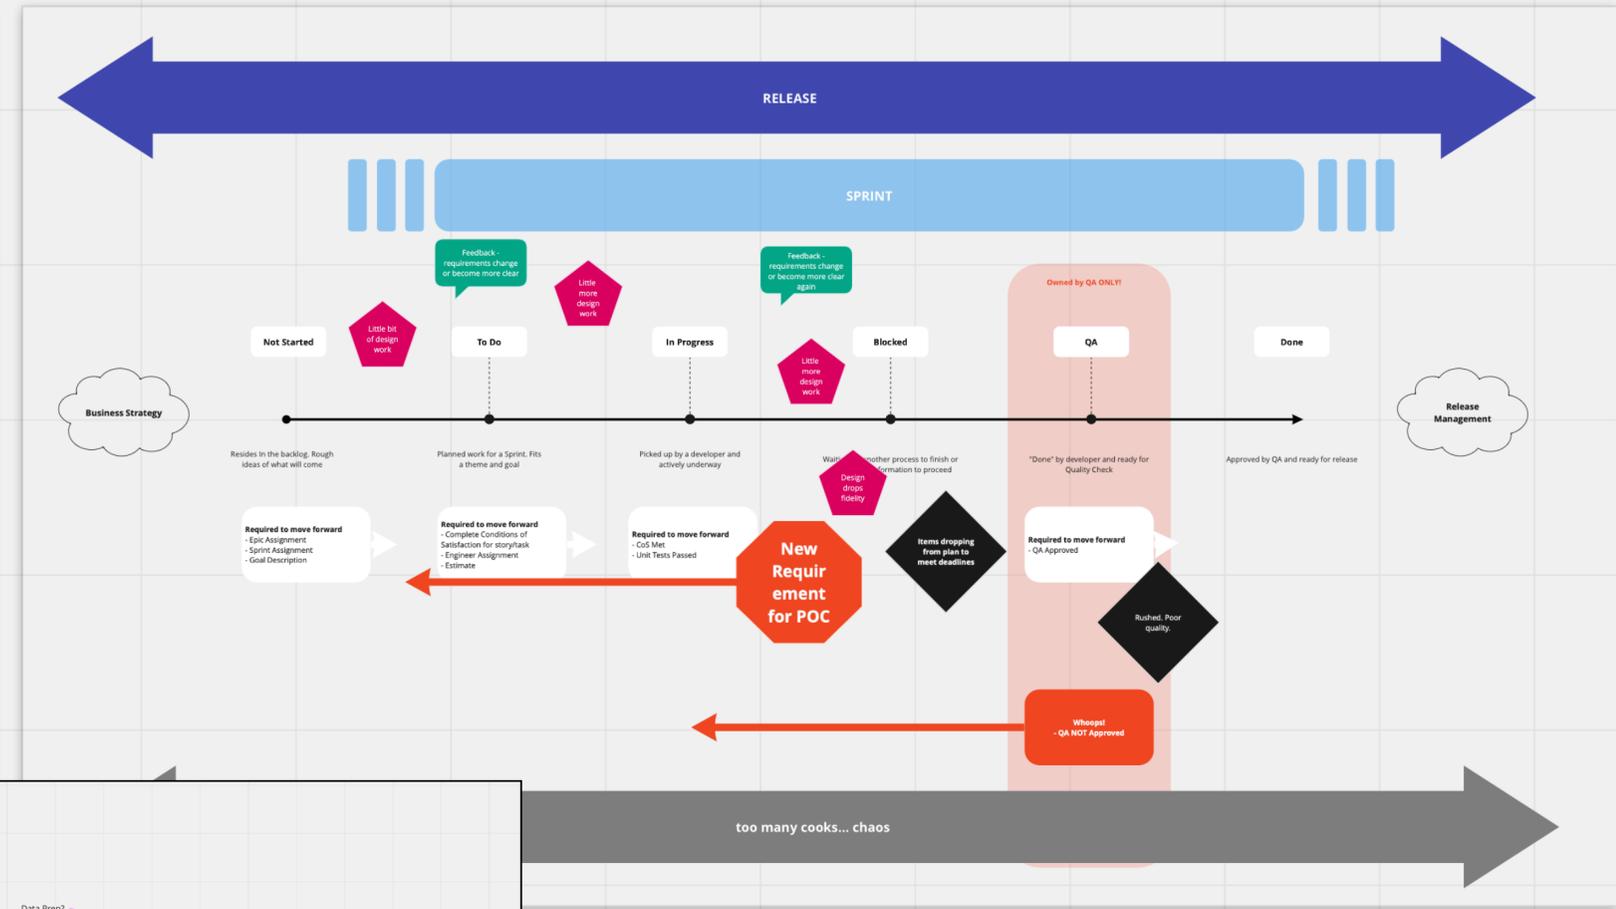

Oh I see, you wanna go all in with your dashboard. But we are prepared for that as well. Think about success notifications, tooltips or even 4 types of pagination!

Grid of miscellaneous UI elements including labels, social buttons, tabs, tooltips, pagination, notifications, progress bars, and simple dropdowns/breadcrumbs.

Do restaurants with more seats generate more revenue across locations? / Answer 2 / Storyteller Insights

Storyteller found 170 insights by analyzing 2.5K+ rows in 0.3 seconds.

Relevance ▾

Total revenue by restaurant - revenue and rest_key used

3 of rest_key are significantly lower and 2 of order_sub_total are significantly higher.

Total revenue by seats - seats and revenue used

There doesn't seem to be a correlation between the number of seats and a higher revenue.

Everstring

EverString (acquired by Zoominfo)

Sr. Director User Experience

Receive a FREE customized intent assessment [FREE INTENT ASSESSMENT](#)

Target accounts

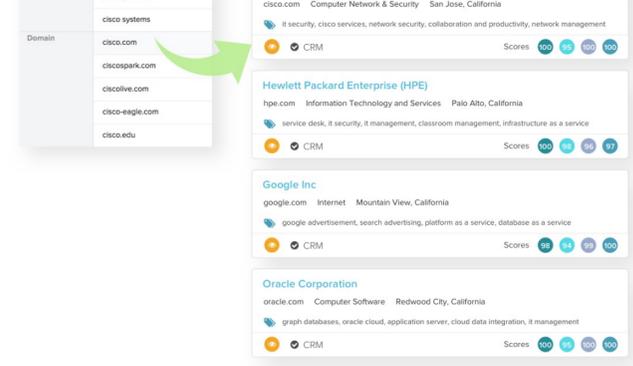

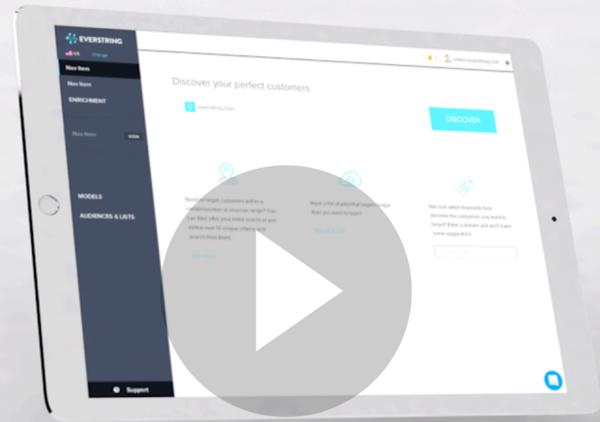

EverString helps marketing and operations teams identify **target accounts and prospects** in-market.

Deep sales intelligence

EverString integrates with any sales CRM to **streamline** your team's entire sales cycles

Direct API access

Everstring API gives access to our **data cloud, AI, and machine learning components as a micro services**

closed-won deals to build ABM lists in minutes, not weeks.

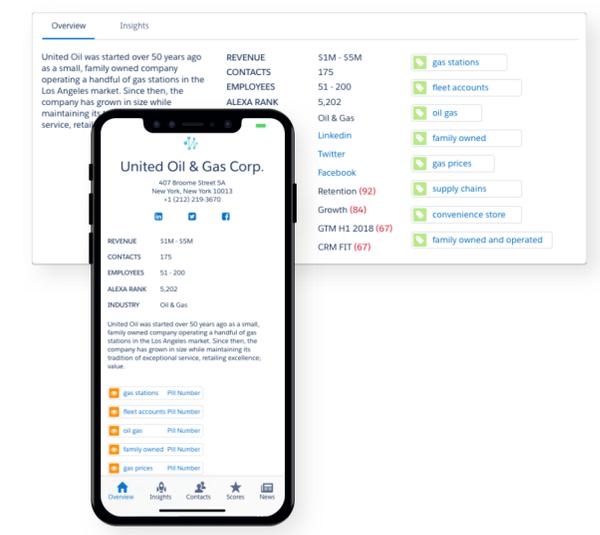

Fit Score + Intent = High Quality Accounts

Run reports in your CRM with EverString's custom **Fit Score** and **Intent** fields and you have a powerful and **actionable** list of **high-fit accounts** who are actively in market for your product.

Surface the insights you need to start a conversation

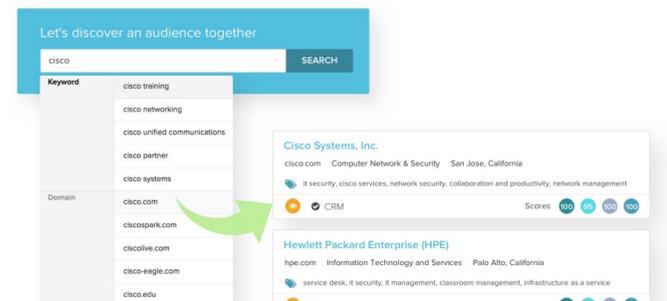

View **company details, technographics,** and other insights without ever leaving your CRM.

Search and filter contacts by: **Seniority, Department,** and **Title** so you can tailor your conversations to the right person.

More accounts, just like your customers

Search for companies by **domains, keywords** or **firmographic criteria** and add them to your CRM or create **predictive models** using closed-won deals to build ABM lists in minutes, not weeks.

USERVOICE

USERVOICE is product management software that aggregates customer feedback to help product managers make data-driven roadmap decisions and prioritize product ideas.

Build your roadmap with real data
Our SmartVote™ Poll helps vet product ideas with your users in the form of a single question survey. You can segment results by user traits and metrics, like revenue and customer satisfaction. This allows you to define your roadmap with data science and build consensus within your organization.

Be at the right place at the right time
With UserVoice, you can gather feedback and ideas right in your app (web or mobile) with a native user experience or in private labeled online feedback forums where you can reach your users while they are the most engaged.

Drive new feature adoption
We provide a direct channel to customers requesting a feature so you can easily communicate to users before launch to get volunteer beta testers or

Mango Health
Consultant

Welcome to Grand Rounds, Mark.

Even if you're active and healthy, you should still have access to the best healthcare. That's why we're here.

We're Grand Rounds and we're here to help.

[< Learn more about Martin's story.](#)

Here are some great ways to get started with Grand Rounds.

Find a new primary care doctor

Get a second opinion on a diagnosis

Find a new pediatrician

Get a second opinion on a course of treatment

Find a specialist to see in-person

Evaluate a medication regiment

Evaluate the option of surgery

Need to talk to a doctor right now?

If you'd like to speak with one of our Staff Physicians, schedule a video chat or phone call now.

SCHEDULE A CALL OR CHAT

Not sure what you need? Tell us how we can help you, Mark?

Find a doctor for Mark (me)

GRAND ROUNDS MARK M.

Payment Information

Many companies have partnered with Grand Rounds to provide no-cost or heavily discounted Office Visits to their employees.

Grand Rounds Office Visit

Grand Rounds works with physicians ranked in the top 3% of their respective fields. Among other considerations, we base our choices on the quality of a physician's medical training, experience, clinical focus areas, and treatment preferences, as well as an overall assessment of their practice.

With Office Visits we will assign you a Grand Rounds staff physician and a personal care coordinator who will:

- Identify the leading physicians for your condition, in your area, who accept your insurance
- Schedule an in person visit with your chosen physician
- Collect and securely consolidate all your medical records and images into your digital Document Center
- Follow up with you after your appointment to ensure that your visit was world class

Appointment Messages Medical Documents

Mark, we've scheduled your appointment
Please call your Grand Rounds Care Coordinator at (800) 929-0926 if you have any questions.

About Richard Culver, MD
Dr. Culver is a great match for you because he specializes in sports medicine and arthroscopic surgery of the knee. He is well trained to perform total knee replacement should that be necessary.

Studied at University of California, San Francisco, School of Medicine
Graduated in 1997
Trained at Stanford University Medical Center
Board Certified in Orthopedic Surgery, Sports Medicine

Guide to a better doctor's visit

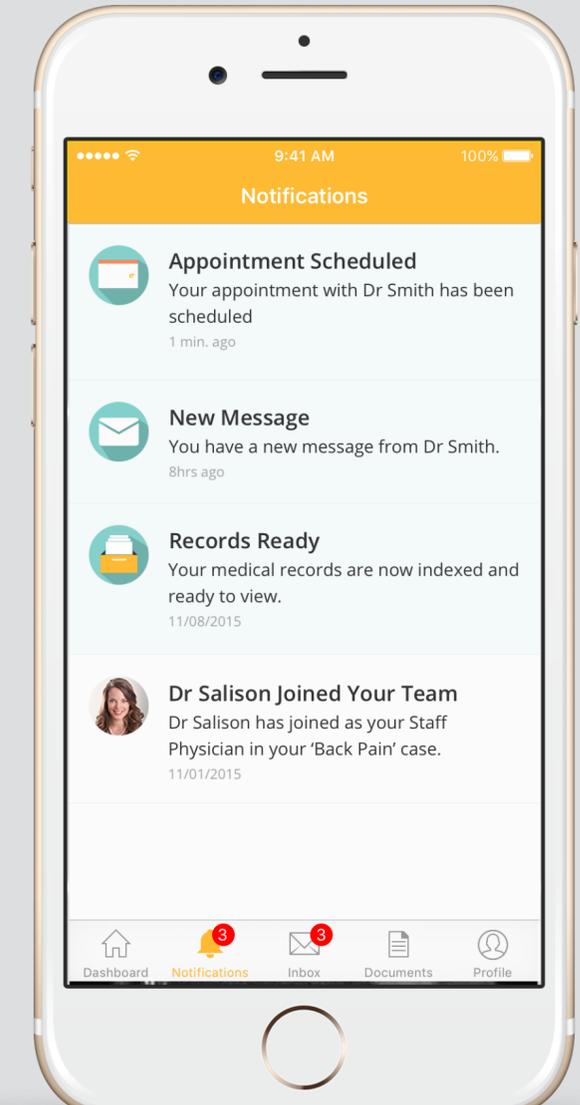

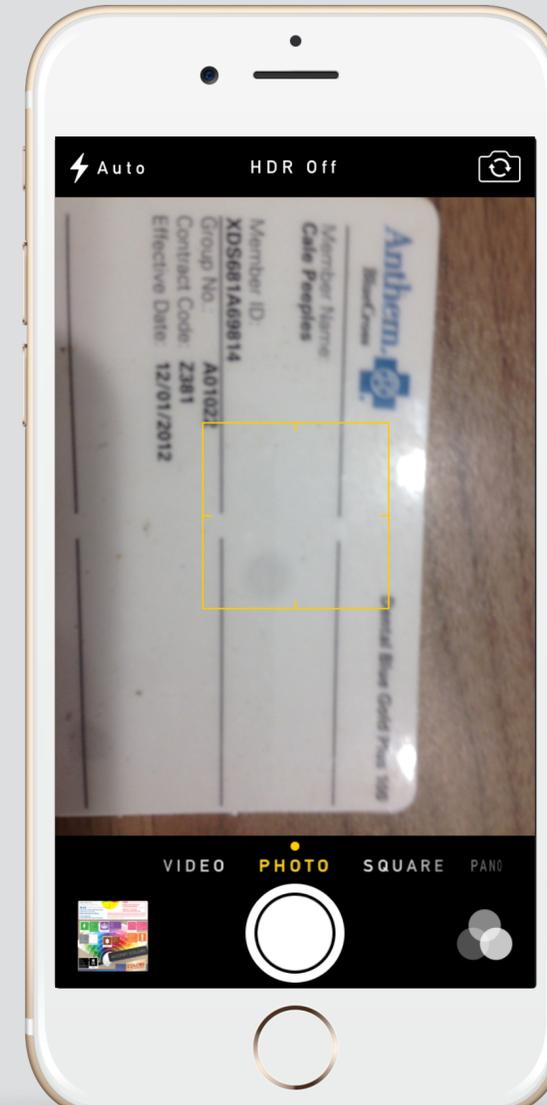

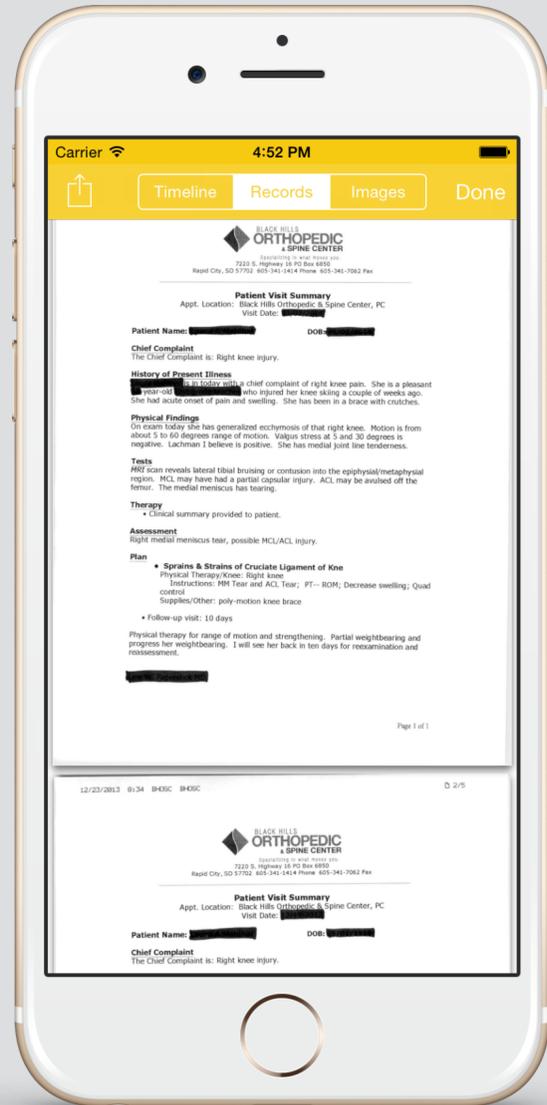

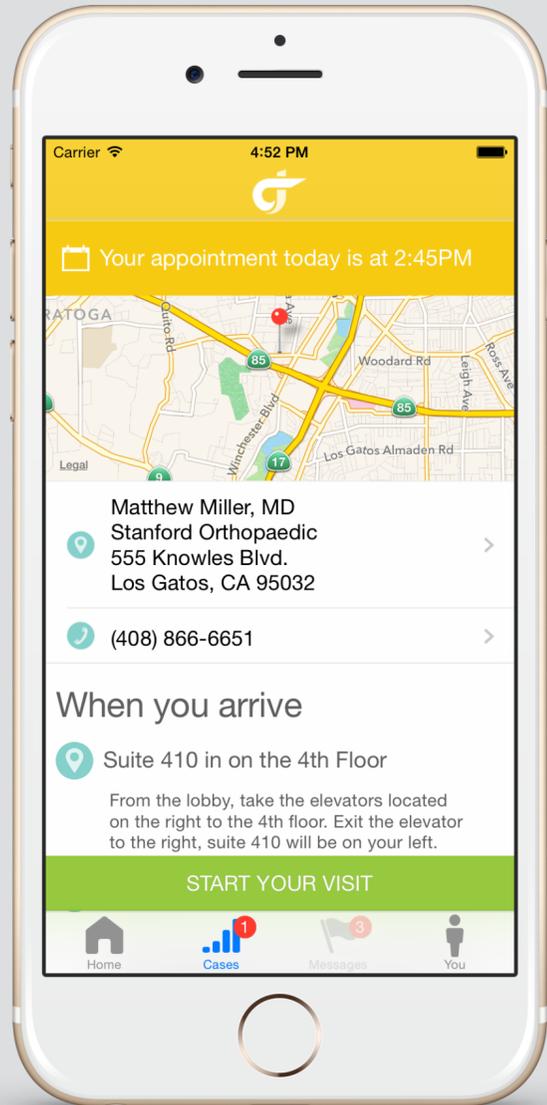

- Bring an updated medication list
This allows your doctor to check for drug interactions before writing new prescriptions.
- Ask questions
Get the most out of your visit by asking the questions you need answers to.
- Take notes
Write down key takeaways and answers to your questions so you have them after your visit.
- Get the mobile app
Access your appointment details and connect with your Care Team on the go. Available on [Google Play](#) and [Apple App Store](#).

Questions we've prepared for your visit

Your Staff Physician has prepared some questions for you to get the most out of your visit. **Print and bring to your visit.**

- Do you think I need Total Knee Replacement (TKR)? If so, when?
- What are the different treatment options (other than TKR), and which is best for me? Why?
- What should I expect in the short and long term?
- How can I best protect my joints to stay optimally healthy?
- Do you recommend that I take calcium supplements or vitamins?

Dribbble

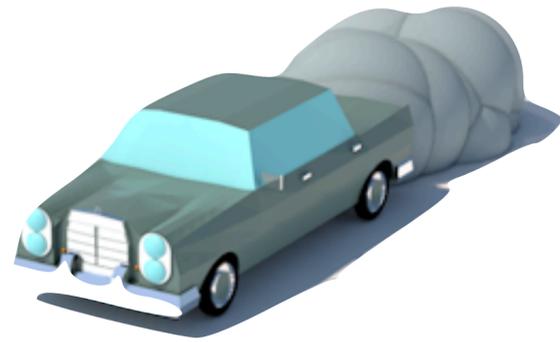

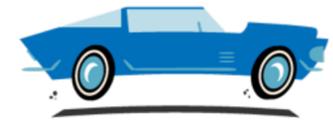

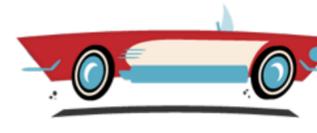

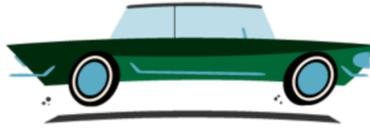

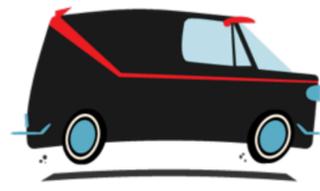

All the stuff that doesn't fit here

The image shows a Dribbble profile page for a user named Cale Peeples. The profile is located on the left side of the page and includes a circular profile picture, a 'PRO' badge, and a bio: "Hi, I'm Cale. Currently I'm Sr. Director of User Experience at www.everstring.com -- working hard to make powerful data-driven applications easy to use." Below the bio, there is a 'SKILLS' section with tags for '3d graphics', 'b2b', 'design', 'graphic design', 'illustration', 'mobile', 'product design', 'startups', 'ui', and 'ux'. The 'ELSEWHERE' section lists social media links for calepeeples.com, Twitter, Facebook, Instagram, GitHub, and LinkedIn.

The main content area on the right is a grid of 20 design shots. Each shot is a square image with a white border and a small icon in the bottom left corner. The shots include:

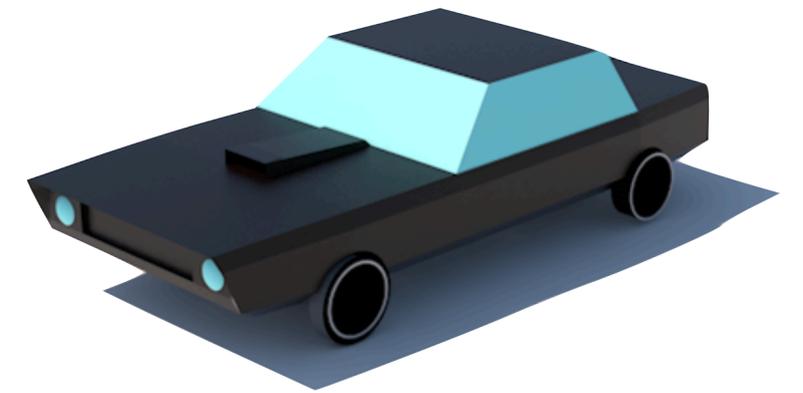

- 3D rendered figures resembling fingers or pencils.
- A 3D rendered car.
- A 3D rendered car from a different angle.
- A pink background with a green plus sign.
- A 3D rendered car.
- A 3D rendered pumpkin character.
- A dashboard or data visualization interface.
- The Everstring logo.
- A dashboard or data visualization interface.
- A 3D rendered character in a landscape.
- A 3D rendered character in a landscape.
- A 3D rendered building.
- Two dark blue cards with white text and icons, labeled 'HENRY V'.
- A green background with a black tree and the text 'As you like it'.
- A dark blue background with a colorful circular graphic.
- A 3D rendered fox character.
- A 3D rendered fox character.
- A 3D rendered fox character.
- A blue background with a white owl and the text 'Fox and Owl'.

Each shot has a small icon in the bottom left corner and a set of statistics in the bottom right corner, including a view count, a comment count, and a heart count. The top of the page features the Dribbble logo, navigation links (Shots, Designers, Teams, Community, Jobs), a search bar, and a 'Recent Shots' button.

Burning Man

Wacky kids

“Visited the i-STORM trailer where the World Wide Web contingent is putting together the live Burning Man Web site, www.istorm.com/burningman/. I enjoy hanging with these happening GenX Web entrepreneurs. They're nice guys just fizzing with creativity. It's like meeting Walt Disney when he was still drawing on a tabletop in Kansas City, Missouri.”

Bruce Sterling - Wired 1996

thanks
